## Paddock ground cover information

This report presents monthly ground cover time series graphs (2017 to present) for selected Lots on plan, including the percentage area of each ground cover level within a Lot on plan as at June 2023. The cover trend for the period is also shown for each paddock time series - as 'significant' (i.e. a rising or falling trend) or 'not significant' (i.e. no significant change in trend). The trend is calculated by fitting a linear regression between time and the monthly ground cover values.
